

# HALCYON INFUSIONS & THERAPEUTICS

***"Ketamine is  
the most  
important  
breakthrough in  
antidepressant  
treatment in  
decades..."\****

\*Tom Insel, Director National Institute of Health

Over the past 20 years, ketamine has proven to be one of the most rapid and effective medications for treatment resistant depression (TRD), OCD, PTSD, and suicidal ideations. Symptom reduction rates have been documented in excess of 70-80% of patients who receive this treatment and may occur as early as after the first infusion.

We are excited to bring this revolutionary treatment to the people of the Treasure Valley community and beyond.
